OFAC and International Sanctions Compliance Protocol

1. Real-Time Sanctions Screening Procedures

Every cross-border wire instruction and swift message must pass through automated real-time OFAC SDN fuzzy matching engines before settlement. Matches with confidence over 85% mandate immediate transaction block.

2. Asset Freeze Execution Mandate

Upon confirmation of an SDN list match, compliance officers must freeze the target assets within 10 business days and submit formal blocked property reports to FinCEN and the Office of Foreign Assets Control.
